

I have replied to some of your complaints, as marked up in RED. And thank you for your input.

-- Regards, Data Manager FreeReg.

I was going to look to see if you had any entries for a parish in Inverness-shire ... when I selected 'Inverness-shire' I saw your list of places there and was shocked! The vast majority of these places are NOT in Inverness-shire! They are in the Parish and Registration District of Barvas in Ross and Cromarty! Jeez! Who is responsible for this? Unbelievable ... The villages listed also contain spelling errors and the entries should be corrected and moved to the correct county!: The Parish of Barvas includes the following villages (townships): Barvas [from which the parish takes its name] and that is divided into Upper Barvas and Lower Barvas. Cross [a village in the parish and historically a quoad sacra parish but for all intents and purposes that is absolutely irrelevant, as it does not affect the registration of vital events, all of which are recorded in the parish registers

(Parish of Barvas)] Eorodale Eoropie [note correct spelling!] Fivepenny [there is another Fivepenny in the parish, so both have to be distinguished} :

Please refer to Help notes for Researches regarding Place Names and their County

Fivepenny, Ness This place is spelled as 3 words in the Gazetteer and in
<https://canmore.org.uk> so that is how we have it.

Fivepenny Borve This place is spelled as 3 words in the Gazetteer and in
<https://canmore.org.uk> So that is how we have it.

Habost [There are two Habosts in Lewis, one in this parish and the other in the Parish of Lochs, so this entry should read: Habost, Ness Knockaird [note correct spelling] I have created the 2 new place names. In accordance with FreeReg style, if there are 2 places in a County, with the same name we distinguish by attaching an identifier in parentheses so here its Habost (Lochs) for the second one. I have removed the unwanted details from INV

Lionel [note correct spelling] The Gazetteer lists 2 place names -Lional and Lionel, both being names for the same place - I have deleted Lional from FreeReg

North Dell Our table DOES show the name like this

North Galson Removed - Too small & no church there that I can find

South Galson Removed - Too small & no church there that I can find

Port [which should read Port of Ness, its full name] Our table DOES show as Port of Ness. And NOT as you claim.

Skigersta [note correct spelling] Our table DOES show like this

South Dell Our table DOES show like this

Swainbost [note correct spelling] added as a place name. Thank you.

There are, of course, other villages in the parish, but these do not appear in your list ..Our listing is not intended to contain every hamlet. It is intended to include places that had a church - or a Manse from which the church functions - and other mid sized villages (and larger habitations).
